# X-CELERATOR® Coiled Rod Injector

X- 250 SHOWN

X- 350 SHOWN

X- 450 SHOWN

## Technical Specifications of Current X-CELERATOR® Models

	X-250	X-350	X-450 (Open Faced)*
Maximum Pull (lbs)	30,000	50,000	50,000
Maximum Speed (ft/min)	120	120	120
Hydraulic System	Closed Loop	Closed Loop	Closed Loop
Height (Inches)	70	83.5	90.75
Width (Inches)	31.5	32.5	45.5
Depth (Inches)	32	35.5	31.75
Weight w/o Hose (lbs)	3,400	4,100	5,800

\* Available with open loop drive train upon request (lower max pull)

## X-CELERATOR®

The X-CELERATOR® injector head was engineered to eliminate the inconveniences and extensive labor and equipment costs once associated with conventional rod installation. Capable of reaching installation speeds of up to 120 feet per minute, it enables coiled rod operators to achieve rod installation speeds faster than any other piece of equipment or method on the market.

**Our experienced mechanical, hydraulic and electrical staff install commission and support your equipment 24 hours a day 365 days a year!**

**Contact us** today to experience service that is second to none!
